C4C - Coach for Community

Learn how you can create a player-centered environment.

The U.S. Soccer Federation has partnered with Vermont Soccer Association to launch the free U.S. Soccer Coach for Community event. This program is focused on providing coaching education resources with the goal of helping local soccer leaders create better playing environments, increase participation, and retain players and coaches. The coach clinic will provide games and activities that can be used in your practice. It will model a practice from beginning to end with the ultimate goal of creating a positive player centered environment.

We would like to invite all local organization leaders, coaches, teachers, parents, and anyone else that is responsible for creating youth soccer experiences in your community.

The Coach for Community event has two parts:

- It will launch with a 1-hour virtual classroom session. Which will provide an overview of best practices for coaching Grassroots players. Zoom link will be sent closer to the date.

- In-Person Field Session. The event will continue with a 2-hour field session. Which will provide practical application of the Play, Practice, Play (PPP) methodology.

We ask that you attend both the classroom and field session!

Each participant will need to create an account in the U.S. Soccer Learning Center in order to be able to register for the event.

If you attend both the virtual classroom and In-Person field session you will receive an individual voucher for an online U.S. Soccer Grassroots Coaching Course!
